---

Vice-rector for international and youth programmes prof. N. Senchenkov presented to the Academic Council of Smolensk State University a report on the international activities of the university "The results of the international programmes implementation in the 2015-2016 academic year and tasks for 2016-2017". Currently Smolensk State University is actively developing cooperation with foreign partners and implements new areas of cooperation with universities of Poland, Germany and China. The intensive exchange of official delegations with the aim of promoting international contacts speaks to the growing interest in our University.

Our Department for International Relations monitors regularly the range of proposals for international cooperation from the Ministry of Foreign Affairs, Rossotrudnichestvo and other organizations focused on the promotion of international contacts.
